

Why Buy Travel Protection?

Here are some reasons we believe it's important to purchase travel protection when securing your vacation plans.

- 1.** You have to cancel your trip due to sickness, accident, or death of a family member or traveling companion.
- 2.** If bad weather conditions cause a delay or cancellation of your trip, you could lose any non-refundable deposits and/or incur charges.
- 3.** Your luggage could be lost, delayed, or stolen forcing you to buy additional clothes, essentials, or even prescription medications.
- 4.** In case your cruise line, airline, or tour operator goes bankrupt.
- 5.** What if you have a medical emergency in a foreign country? Most major health plans in the U.S. offer little or no medical expense protection abroad.
- 6.** You could have a medical emergency while traveling, requiring emergency medical evacuation. Many U.S. health plans will not cover emergency medical evacuations.
- 7.** You could run into major travel delays forcing you to miss a portion of your trip or cruise and be forced to pay additional lodging expenses while you wait.
- 8.** You could be forced to evacuate your resort due to a hurricane or other weather conditions, cutting your trip short – with no recourse for reimbursement for the remaining portion of your vacation.
- 9.** You could lose your important travel documents, which can be a uneasy situation abroad without the help of travel protection.
- 10.** If you were to lose your job but have already paid for your trip or cruise, travel protection can help to get your money back when you cancel.
